CARE & MAINTENANCE FOR SHELL

GLIDES

Our glides are constructed of high-quality materials including nylon, rubber, thermoplastic polyurethane, felt, or stainless steel. Glides can be fixed, adjustable or even self-leveling. Over time, the glides wear down and should be inspected frequently. If not, worn glides can damage the furniture and flooring. Wear rates vary on flooring type and texture. When possible, lift furniture (rather than dragging) to move it.

ROUTINE CARE & MAINTENANCE

- Inspect frequently
- Replace worn glides as needed
- Replacement glides are available through your sales specialist

JANUSFIBER[®] & SYNTHETIC FIBER

Our synthetic fibers are not only recyclable, colorfast, UV-resistant, stain-resistant and suitable for humid and salty environments, but they also require minimal maintenance and endure beautifully in a range of temperatures. The fiber lineup includes proprietary handwoven JANUSfiber, made from high-density recyclable polyethylene.

ROUTINE CARE & MAINTENANCE

- Vacuum to remove loose dirt
- Prepare a cleaning solution of 2 ounces (1/4 cup) of mild, pH-neutral soap such as Dawn[®] and 8 cups of lukewarm clean water (less than 100°F/38°C)
- Use a sponge or soft cloth to clean
- Rinse thoroughly with clean water
- Allow to air dry
